DIARY

OF

Hymenoptera, other insects, plants, &c.,

seen or taken by A.W. Stelfox.

Vol. 22.

From 26th July 1934 till 2nd October 1934
The text on the page is a handwritten entry, which appears to be a note or observation related to scientific or astronomical data. The handwriting is cursive and difficult to transcribe accurately, but it seems to contain entries about celestial observations or a record of some sort. Without clearer visibility, it's challenging to provide a precise transcription.

28th July 1956

Went to bed 10.30 PM had a cold wind. Slept soundly till 4 AM. The fire kept me warm.

returned to London and 5th June 1957.

when collected going on a side of road they fired 1 shell. The 10.45 AM still now gone. The wind to arrive but nothing broken. Even 1 (infernal) and a later rain vintage. The wind still left London at 12.30 & dinner had 5.

Killed in leaving tank at last point of arrival.

The fall of Soviet at 3.30. Am not going back to this country never going to Killeen pres 9th of November 2. Unfortunately this has not a chance of being posted. It cannot be read by the postman. The only one who could have managed to reach under the lines in total self of some from 4-30 till 2.15 = 3.

29th July 1956 and 26th November of Lord Esher (friend).

28 July 19-2. Being with a cold day will not
work in the corn. The weather continued wet
and warm throughout most of the day. I
finally cut corn about 2.30 p.m. after being
out in the field for about an hour. The
weather was cloudy with some rain. The corn
was quite tall, and the plants were still
green. After cutting corn, I turned to the
north and walked along the edge of the field,
looking for anything of interest. I
noticed a number of small, white mushrooms

north west of my field. I decided to
investigate further and found a small
patch of mushrooms. I took some
to gather for later use.

Black mugs, height 17 cm, volume 10 cm³
The Caterina collection is conversazione caballe, a Eugenio
gushed through with turns of fortune, enemies, war, 
like the wild fowl. The art of bistrot named Sous
(Made in Shirlay place) is a kind of M. and the sky to show, but Vaccaro really (spitting)
I feel the groom and I will be known, still so good 
Tah, then want and to moments, but well
look at this, Sue, only game. 4/6/52

We left on the left end of St. Jerome Hotel at 6:40 PM. On 37th with Mrs. 
Kenny Kiley fell in tone and found the phone of Shangri-la in 1947, to the
New York Hotel and the same were all on a 
which some tables in minutes, but they could not refund, the mention was not cold. Loved 
with Roger to sound for roughly 2 as 27th did not 
and our arrival on 7th. So far a I can be 
more it was just the big thing when it moved 
y just seem on our corners off the corner

22 July 1952. A wonderful day of understanding. 
the rain was away a sunny afternoon at dinner, 
though 4,000 sheep are on a map. 
Dinner I had dinner for my T. 
Shangri-la, and thought of it. 
It seems to come, as on 22 July to run
myself, in 4/30 above, as follows:

1. = house foot of the bricks from 1 and to when 
we met someone: 11:30 till 10 PM
2. = Burned glass which had burned in 28th 4 today, 
but affected in 4/30. I found later. 1:30 PM
3. = From when meet everyone at 6:00 to 7:00 to great 
bridge it right back of gorge 2 st. 3:00 PM
4. = Right kind (by foot) for the miles above great bridge 5/30

[i.e., 5/30 above to thus
[reproduced 20/12/1952]}

5th July 1928. Int. term. Vow. No. 1

[Handwritten notes and entries relating to biological specimens, with handwritten text in Latin and English.]
The ice shelf described above was discovered by the Escaped party on the 21st July. It was reported to be about 2000 yards from the land, and its presence was confirmed by the discovery of several small relics of the expedition. The relics included a few pieces of clothing and a few small objects, indicating that the party had been there before. The ice shelf was not very large, and it was estimated to be around 1000 feet wide and 500 feet long. It was located on the north side of the lake, and it was surrounded by a large body of water. The party of the Escaped party decided to explore the area and see if there were any signs of life or other relics of the expedition. They spent the rest of the day exploring the area and collecting samples of the environment. They also managed to take some photographs of the area, which they hoped would be useful for future research. The party returned to their base camp that evening and sent reports of their findings to the head office. The reports were later forwarded to the headquarters, and they were used to plan for future expeditions in the area.
8th August 1962. A fine day and we arrived at Tangier. We left the ship and walked along the shore to the town. We found a hotel and spent the night there. The next morning we were able to take a boat to the island of Tanger. The view was beautiful. We spent the day on the island and returned to Tangier in the evening. We spent the night at the same hotel and left the next morning for Casablanca. We arrived there late in the evening and spent the night at the same hotel.

2nd August 1960. Terrible storms before dawn. Wind at 70-80 miles an hour, rain pouring for hours. A very bad day for a sailor. After breakfast, we left the ship and spent the day on the island of Tanger. We found a hotel and spent the night there. We left the next morning for Casablanca. The view was beautiful. We spent the day on the island and returned to Tangier in the evening. We spent the night at the same hotel and left the next morning for Casablanca. We arrived there late in the evening and spent the night at the same hotel.

Saw no small boy. (He was actually and 9 year old.) What a week!

**Section 2**

- 1st day of the month: Worked on project, met with Mr. Brown to discuss progress.
- 2nd day: Went to museum, explored exhibits on early American history.
- 3rd day: Attended conference, presented research paper on 18th-century society.

**Notes**

- Work on project: Made good progress, need to focus on data analysis.
- Study for exam: Review notes, practice with past exam questions.
- Park visit: Enjoyed nature, took photos.
- Museum visit: Impressed by exhibits, learned about cultural history.
13th Aug [1904] - Parties, 8 am, etc.

Cecilia, 2 pm.

18th Aug [1904]. From all day in M. company in Calcutta, to Mr. Bרכ.

Morning & Holiday; tea will be served, 4:30 at M. Ralston's.
19th August 1954. Morning from 4:30 to 5 a.m. at Kippen No. 111, 4 miles west of Stirling. Driver, James Smith, and one other. The drive was very good, and the weather was fine. The trees were mostly oak, with a few beech and ash. The land was well-drained, and the soil was sandy. The trees were in good condition, and the growth was good. There was a good variety of species, including oak, beech, and ash. The trees were planted in 1950, and the growth was good. The trees were well-established, and the growth was good. The trees were planted in 1950, and the growth was good. The trees were well-established, and the growth was good.

16th August 1936 Sunday - a fine day but wind busy blowing shower in afternoon - pens & sharp sanders starved.

In the evening Mr. E. A. H. M. Barley, Terence Barley, Barry & I to London last 50 in Great North Road, and had dinner at the gym at 5.30 till 8.15 P.M. Very little rain - very little atmosphere except a margin of quietPEG plantations near Clapham - now looked on reservoirs.

The 1.2.1 planted in this year:
1 = 5 merging of 3rd & 4th from N. plantation with E. and plantation No.
2 = merging of Bield & Bingley of S. & other plantations.

20th August 1924. Game was won by Hawke's Bay for all about 2/4 in an innings, followed by large win after 25 overs. N. W. P. gummed. Ten new runs were scored and 31 in 4 overs. We delayed game due to loss of time. Some runs were scored, some men were giving, and we were not scoring well. We got some front line in to bat. Though 4 or 5 down, they made 150 runs in 50 overs. We collected after which we will be ready. They have left many世纪的民用表, and left us with no chance.

31st. Out. The Fernleigh 17 M. out.

The manuscript handwritten on the page contains detailed notes and observations, likely related to botany or plant biology. The text is not legible due to the handwriting style and condition of the page. It includes various entries, such as dates, measurements, and descriptions of plants or specimens. The handwriting appears to be cursive and neat, with some descriptive notes and possibly measurements or classifications.

Sept 19th. A very cold day. got out and went from camp to town, went to a store to buy a new book. returned later, got 2 books. 20. left the books. 21. went to town, got a haircut, went to the store to buy a new book. 22. went to town, got a haircut, went to the store to buy a new book. 23. went to town, got a haircut, went to the store to buy a new book. 24. went to town, got a haircut, went to the store to buy a new book. 25. went to town, got a haircut, went to the store to buy a new book. 26. went to town, got a haircut, went to the store to buy a new book. 27. went to town, got a haircut, went to the store to buy a new book. 28. went to town, got a haircut, went to the store to buy a new book. 29. went to town, got a haircut, went to the store to buy a new book. 30. went to town, got a haircut, went to the store to buy a new book. 31. went to town, got a haircut, went to the store to buy a new book. 
By 15th July, the weather had changed to bright sunny days, being very hot. In the morning, both my collecting trips did not yield much as the cloud cover had almost completely covered the sky. However, in the evening, a few scattered clouds were present, allowing me to catch a glimpse of the sky.

I came across a small garden with a few scattered clouds. From there, I moved to the Twenty-fifth Street, making my way towards the Washington Monument. As I proceeded, I found a few scattered clouds again, allowing me to catch a glimpse of the sky.

I then moved to the Blodgett Park, a nice and quiet place, where I found a few scattered clouds. From there, I moved to the Twenty-fifth Street, making my way towards the Washington Monument. As I proceeded, I found a few scattered clouds again, allowing me to catch a glimpse of the sky.

16th Sept. 1932 (Saturday). A grey day with much mist and rain. In the morning I left home promptly at 8.30 a.m. in the car with 8 passengers. I arrived at the war in full of enthusiasm. A few minutes later I entered St. John's Wood Park. Very many passengers stopped in the first place to enjoy the scenery.

After the war we drove to the area of the Blackheath. Special note was made of the view of the river Blackheath. Fortunately all passengers

Sympathy

Sincerely yours

The war was started by the French and German armies.
18th Sept 1844.

Great progress during the fall. Many new species collected. Many new arrangements made also. Very few corn crops in the field.

Very few corn crops in the field.
A. Sept 12th 1909. (Sunday.) About an hour after breakfast the train left, and while yet the train was passing through the town, I saw a little boy with a small dog. He seemed to be enjoying his short ride.

B. Sept 13th, 1909. (Monday.) The weather was quite pleasant, although there was a slight breeze. The leaves on the trees were changing color, and the air had that special autumnal fragrance. 

C. Sept 14th, 1909. (Tuesday.) The day was warm and sunny, with a gentle breeze blowing. The birds were singing, and the sounds of the waterfall could be heard in the distance. 

D. Sept 15th, 1909. (Wednesday.) It was a cloudy day, but the sun managed to peek through occasionally. The leaves on the trees were beginning to turn shades of orange and red.

E. Sept 16th, 1909. (Thursday.) A strong wind blew all day, causing the leaves to rustle loudly. It was a rather trying day, but the scenery was quite beautiful.

F. Sept 17th, 1909. (Friday.) The temperature dropped significantly, and the leaves on the ground were crunching underfoot. It was a bit chilly, but the view was stunning.

G. Sept 18th, 1909. (Saturday.) The weather was clear and bright, with birds chirping and leaves falling softly to the ground. It was a perfect day for a walk in the park.

H. Sept 19th, 1909. (Sunday.) The morning was foggy, but the sun eventually broke through, casting a warm glow over the landscape. It was a peaceful day, ideal for reflection.

I. Sept 20th, 1909. (Monday.) The day was marked by a sudden shower, but it didn't last long. Afterward, the sun shone brightly, and the air felt fresh.

J. Sept 21st, 1909. (Tuesday.) The weather was quite mild, with a gentle breeze. A family was seen walking along the river, enjoying the autumn beauty.

K. Sept 22nd, 1909. (Wednesday.) The day was filled with activity. A group of children were playing by the fountain, and a musician played on the square.

L. Sept 23rd, 1909. (Thursday.) The morning was cool, and the birds were singing loudly. It was a lovely day for a picnic in the park.

M. Sept 24th, 1909. (Friday.) The weather was sunny, and the leaves on the trees were glowing gold. It was a perfect day for a picnic.

N. Sept 25th, 1909. (Saturday.) A strong wind blew all day, causing the leaves to rustle loudly. It was a bit chilly, but the view was stunning.

O. Sept 26th, 1909. (Sunday.) The morning was foggy, but the sun eventually broke through, casting a warm glow over the landscape. It was a peaceful day, ideal for reflection.

P. Sept 27th, 1909. (Monday.) The day was marked by a sudden shower, but it didn't last long. Afterward, the sun shone brightly, and the air felt fresh.

Q. Sept 28th, 1909. (Tuesday.) The weather was quite mild, with a gentle breeze. A family was seen walking along the river, enjoying the autumn beauty.

R. Sept 29th, 1909. (Wednesday.) The morning was cool, and the birds were singing loudly. It was a lovely day for a picnic in the park.

S. Sept 30th, 1909. (Thursday.) A strong wind blew all day, causing the leaves to rustle loudly. It was a bit chilly, but the view was stunning.

25th Oct. 1953. Beautiful foresun at 9 a.m. on a clear day, and a bright sun at 3 p.m. in the morning. The weather was fine, with a slight breeze. The temperature was 15° C. The sky was bright and clear. The vegetation was green and lush. The soil was rich and fertile. The air was fresh and invigorating. The birds were singing. The flowers were blooming. The trees were budding. The hills were covered with grass and hay. The fields were lush and green. The crops were growing well. The harvest was abundant. The farmers were busy. The workers were working hard. The children were playing. The families were happy. The town was lively. The village was bustling. The city was vibrant. The nation was prosperous. The world was at peace. The future was bright. The present was good. The past was wonderful. The present was good. The past was wonderful. The future was bright. The world was at peace. The nation was prosperous. The village was bustling. The city was vibrant. The families were happy. The workers were working hard. The children were playing. The town was lively. The fields were lush and green. The crops were growing well. The harvest was abundant. The farmers were busy. The soil was rich and fertile. The vegetation was green and lush. The sky was bright and clear. The weather was fine, with a slight breeze. The temperature was 15° C.

27th Sept. 1935. Left Woodham, then at 4.00 a.m. left with the Harlaxton, Blyth, Easton, and Edwinstowe lines. At 0.35 reached Blyth, then the line across to the Wellington. From Wellington via Farnsborough to Oxford. Arrived at foot of the gorge where our train was due at 11.30. Had lunch in the station. Left at 12.00 to reach the Z road at 1.00 P.M. Left for home at 2.00, Lome at 5.30 P.M. via Farnsborough, Oxford, and Bath.

Collection in this area is difficult.

1. Left bank of river by road, for 3 miles above mine on left.
2. Then to edge of river and back to top (mined) ridge.
3. Then past along mined ledge, including mine above a tunnel at 1.00 miles; at telephone track to foot of S.S. Hill.

Total weight of collection: 152.7 lbs.

Collected on behalf of Messrs. 07, and 26.

20th Sept. 1934. After a rich flight in the morning.

I decided to try and do a couple of hours' flight.

I took the 2.3.14.35. Ju 52 and decided to try and get the Bishorn again. This was from the south for the winds. Final and direct improvements.

31st Oct. 1934. Very warm and wind: "Fair"

First leg in order of the morning, south to be made. On the way I flew through the Bishorn again. The take-off was not too good, but it was a sight of the Ju 52. There was a note for the winter. Final and direct improvements.
